PRESIDENT'S MESSAGE

As I am writing this article, I know that the voting is going on for two ballot issues and the race between five candidates for three open Board seats. As you read this article, you will know the results of the election. Congratulations to the newly elected Board members! Buckle up, we are beginning the 2021-2022 budget process. Four to eight hours a day, the first week of March and then again as often as it takes to arrive at a budget to present to the residents. Since December, the Administration and the Department Directors have been working on preparing, not only budget requests, but the "backup" material now called a "narrative" to justify or explain the dollar amount requested. I urge you to attend all or some of the budget hearings. They will be conducted via Zoom and therefore more accessible than ever before. Generally, each Department will make a presentation and the Board members will ask questions. Some questions will require research and compel that Department to return in the future with those answers. Each Department will present their requests for operating funds for the next fiscal year and their requests for expenditures from the Reserve Fund. Without going into detail, Reserve Funds are generally expenditures to repair or replace larger or more expensive assets of the Association. A major consideration given to this area of the budget may well be preventative maintenance of our assets. The Board and I believe that prolonging the life of assets is both prudent and cost-effective. The hearing process may be adjourned for a few days if the Administration needs time to research in order to answer questions raised by the Board. For the most part, these meetings are led by the Finance Department and the Administration.

By the time that you read this, we as a community should be beginning phase two of vaccinating our residents. Starting on February 2, the Las Vegas Fire Department in conjunction with the Administration, community volunteers, staff, and Security Patrol, began the daunting task of vaccinating the residents of Sun City. The quest or story began at least a month earlier when our Executive Director, Mitzi Mills began the process by asking our elected representatives, if one of the sites for vaccinating citizens could be Sun City. She got the Mayor and the City Manager of Las Vegas to agree and then involved staff in meetings with the Las Vegas Fire Department, to make this become a reality. There were, of course, delays in getting approvals and then the logistical obstacles and manpower demands. Every challenge presented was met with "we can do it," or "we can get whatever you need." Special thanks to the staff that became intimately involved. Brandon and the Maintenance Department for moving, buying and otherwise procuring all of the furniture, equipment and supplies needed both inside and out. Thanks to Melissa and the Community Services staff for organizing, training and scheduling all of the volunteers that helped. Thanks to those 40 plus residents who stepped up to not only use some of the work skills that they had, but for attending training and working so many hours. Thanks to Security Patrol for those 10-hour days in the parking lot directing traffic, assisting some of our more senior residents with wheelchairs and walkers, as well as assisting in keeping the residents in line in a timely fashion.

Perhaps the most important function was performed by Pam, Jessie, and the Fitness staff. After Doug and the IT staff set all the appointments up, we had to change the appointments and reschedule or call all the residents to either set up, reset, or remind folks of their appointments. No small task. I visited the vaccination site a few times and was not only very impressed by the organization, but mostly by the kindness that the volunteers were showing to the residents and the gratitude that the residents were showing to the volunteers. It made me smile, and once again be thankful that I am a part of this wonderful community that we call Sun City.

The First Dose

During February SCSCAI, under the leadership of Executive Director Mitzi Mills and her staff organized the COVID-19 Vaccination Program for residents of Sun City Summerlin. As of this writing, 4,587 residents were vaccinated with their first dose. Second doses to follow. This program would not have been possible without the assistance and cooperation of the Las Vegas Fire Department, Fitness Department, Community Services, Sun City Summerlin Security Patrol, Building Maintenance and up to 100 volunteers.

My wife and I were assigned different days because of our age. In my almost fourteen years living here, I have never experienced any event as well organized as this program. I drove into the Desert Vista parking lot and was directed to a parking spot by the Security Patrol. Then I got on to a small line to check-in with the papers I had filled out, then I was directed to a chair in the Ballroom. I sat on the chair as someone checked my paperwork. Medical personnel administered the vaccination. A third person filled out my card. I just sat in the chair until a timer set for 10 minutes rang and then I was directed to the person who would set up my second dose appointment. The whole procedure took about twenty minutes!

In conclusion, this was well organized and productive from beginning to end.

SECURITY PATROL

702-254-2303

"S" Is A Great Beginning!

The letter "s" takes up a lot of space in the dictionary and thesaurus. You can hardly write a sentence without using multiple "s"s. We just used 9 "s"s at the beginning of this article (you might check that number).

The most important "s" in this article, is the one at the beginning of the word "security". Our Security Patrol strives to

help every one of our neighbors feel safe and secure in their homes, or while socializing, or visiting Sun City facilities. Many of our friends have said that the Security Patrol is one of the reasons they purchased their home in our community. The patrol staff points members in the correct direction to accomplish the required duties. Keep in mind, all of our patrol members are volunteers and we are "neighbors helping neighbors".

It takes diligent study on the part of incoming patrol members to feel confident in their assigned position and to receive the coveted gold shield. That confidence also comes from the support of fellow patrol members and the appreciation shown by residents. Patrol drivers and information center hosts, love to see the waves from residents as they work their assigned shifts. The service given by the hundreds of

Bill Schoening,
Chief of Security

patrol members (both current and past) is a priceless gift of commitment to Sun City Summerlin.

Could it be time for you to begin a new chapter in your life? Security Patrol is always ready to show a potential member all of the different ways to help protect our wonderful community. Just as soon as the circumstances with COVID-19 subsides, our training group will begin scheduling sessions for new members. Each new member receives a professional uniform provided by the patrol. You may meet a new best friend and start a brand-new adventure.

So yes, "s" is an important letter, but for the patrol, it takes on even more importance as our Chief this year is Bill Schoening. During a challenging part of all our lives, he will be

a strong voice for this group. Mr. Schoening shared this thought, "Our best security in Sun City, are all the homeowners who collectively observe and report situations. Criminality is the least of these great observations. More often than not, we simply help each other, whether it is a landscape water leak or a disoriented resident. Always know you may call us at 702-254-2303 for information. Security has access to many resources in the valley. If your concern is of criminal activity, call 911 without hesitation."

Not to be done with "s" just yet, sidewalks are such a vital piece in our lives. They are along every street in Sun City, we cross them every time we enter our garage. If we walk a dog or just take a stroll, chances are we walk on the

sidewalks. It is so important to keep every sidewalk clear of any obstructions at all times. As you pull over to a curb to park, please take care and that your wheels are in the street, not obstructing the walking area.

The patrol is here to support our neighbors, our facilities, and our families. You have a place to call if you have a concern that the patrol may be able to answer. Keep our phone number close at hand. Security Patrol is on duty seven days a week, twenty-four hours a day, three hundred sixty-five days a year.

Meet Barbara Davidson

I have been a resident in Sun City for over 20 years, and migrated to Nevada by way of San Jose, California. I am originally from Aliquippa, Pennsylvania, where I started out in adult life as the proprietor of a beauty shop. I have been working with HOA companies since 2008; with the Community Standards Department for the full 6 years of my employment with Sun City Summerlin. I became the Director of Community Standards early in 2020. I have a daughter who is a Fitness Director at another Sun City Community in Henderson. My grandson who is almost 22 (my, how time flies), is an animal lover and has a special interest in reptiles. My professional background includes marketing/public relations, human resources, and management on several levels. One of the more fun professions I have had was several years as a poker dealer in California. I enjoy travelling and trying new restaurants. I am patiently waiting to be able to do those things again soon.

The Community Standards Department within Sun City has the responsibility of maintaining high standards of appearance and upkeep in our neighborhoods. With only two of us in the office, my Assistant, Julie Zerbel and I, review and process applications along with verifying possible violations. We both

rely on a comprehensive list of Development Standards that are also upheld by the Architectural Review Committee (ARC) members to keep our home values at the highest possible levels. We also provide administrative support to the Deed Restriction Hearing Committee (DRHC) which hears formal complaints alleging violations of the Development Standards.

The Community Standards Department and ARC are two names that have quite often been used interchangeably, but they are two different entities. To clarify, the ARC maintains the standards and guidelines to provide an orderly and visually cohesive community. The Community Standards Department is total administrative support to ARC and DRHC, accepts responsibility to review and process applications for a large variety of homeowner requests, and verify and resolve possible violations.

While ensuring the standards of our community are maintained (it may not sound like the world's most exciting job), I truly enjoy interacting with so many of you and doing my part to make sure our residents enjoy this amazing community to its fullest. I take great pride in keeping up the beauty of our little city and look forward to seeing more of our residents' faces soon.

Barbra Davidson, Director of Community Standards

Begosh and Begorra!

Ah, the Irish. As the song goes, "When Irish eyes are smiling, sure 'tis like the morn in spring. In the lilt of Irish laughter, you can hear the angels sing."

For most people, St. Patrick's Day is a day to make light of all the seriousness of the world, to enjoy some merriment and to unite as one by wearing green, because after all, everyone is a little Irish on St. Patrick's Day! But not too long ago, Americans didn't feel that way about the Irish when they arrived in the United States as immigrants.

Two very different perspectives. How did this come to be? Why do we wear green? Who is St. Patrick? How did this holy day become a day of celebration? Let's discuss the history, the legends, and the myths.

St. Patrick was not Irish. Who knew? He was born some time around the 4th century, in Roman Britain and was kidnapped during an Irish raid at the tender age of 16. Born into a wealthy family, he was forced into slavery working as a shepherd for six years before he escaped back to Britain. His parents were Christian, and St. Patrick accepted the Catholic faith. Soon after, St. Patrick began religious training and ordained as a priest. He elected to go back to Ireland to help save the Pagans and introduce the Christian faith. St. Patrick died on March 17, 461 (St. Patrick's Day). One of the legends about St. Patrick is that he "drove the snakes out of Ireland". This turned out to be symbolic, because Ireland never had any snakes to begin with; therefore, the "snakes" represented the Pagans. St. Patrick also famously used the "shamrock" (3-leaf clover) as an educational tool, to explain the Holy Trinity (the Father, Son, and the Holy Ghost) to non-believers. In fact, it's a form of clover and there are no such things as shamrocks.

By Molly
Sher/Link

Why have people traditionally worn green on St. Patrick's Day? In the 18th century, Irish Catholics began to wear "shamrocks" on St. Patrick's Day as testimony to their faith. That eventually turned into the "wearing of the green" among the Irish population, and eventually throughout the world. One notable thing that St. Patrick did, that is not well-known, is that he played a part in the Irish saving civilization as we know it; that is, the literature and culture of Europe. After the fall of the Roman Empire, Germanic tribes invaded Europe intent on destroying the culture and literature of the Greeks and Romans. St. Patrick created several monasteries in Ireland and the monks dutifully copied the manuscripts of the Greek and Roman culture. It is said that these manuscripts proved invaluable in creating the Renaissance.

St. Patrick's Day falls during the season of Lent, and years ago the Church lifted the ban against meat and alcohol for the day, and a day of celebration commenced. According to the records, the first day that was celebrated in St. Patrick's honor in the U.S., was on March 17, 1601, and was celebrated in a Spanish colony in St. Augustus, FL. However, another document records that the first St. Patrick's Day was in Savannah, Georgia. A century later, on March 17, 1722, a group of homesick Irish soldiers marched in the streets of New York to honor St. Patrick, and that was the first actual parade.

The Great Potato Famine of 1840, brought hundreds of thousands of destitute Catholic Irish to the United States. Until then, only wealthier and educated Protestant Irish immigrants had made the trip across the pond. Like many immigrants who have moved to the United States, they were considered strangers because of their traditions and accents. In New York, Boston, and other major cities, the Irish couldn't even get the most menial jobs, and most ads in the newspapers printed the slogan, "No Irish Need Apply." It takes time for immigrants to be accepted and become accustomed to the American way of life, and this has been the history of many cultures who have come to our shores and faced rejection. Indeed, in one of the first St.

It's St. Patrick's Day!

Patrick's Day parades, the Irish were portrayed as drunken, violent monkeys by the newspapers. Prejudice was rampant.

So how did things change, you might ask? The Irish started to realize that there was strength in numbers, and various Irish societies formed parades for St. Patrick's Day. They became a formidable political force, and the "green machine" as it was called, built clout. Soon, political hopefuls wanted to be included in the St. Patrick's Day parades. A proud moment for the Irish who continued to fight racial profiling and stereotyping came when President Harry S. Truman attended the New York St. Patrick's Day parade in 1948. Fast forward to more modern times, and you will find St. Patrick's Day celebrated in many communities and cultures. In 1962, Chicago began dyeing the Chicago River green in observance of St. Patrick's Day. The story goes that the city pollution control workers came up with the idea as they used dyes to trace illegal sewer discharge, and they thought it might be a nice way to celebrate the holiday. At that time, they used 100 pounds of green vegetable dye which kept the river green for a week. Today, they use 40 pounds of dye, and the river stays green for several hours. But that's not the way Tom Whoolley, a hotel manager in Savannah, Georgia, would have you believe. He claims that in 1961, he convinced city officials in Savannah to dye the Savannah River green. Unfortunately, it didn't work out very well and the river only had a greenish hue. He then claims that he personally shared his idea with the Mayor of Chicago, Richard M. Daley. There are some who refute his claim.

Nowadays, people from all around the world celebrate St. Patrick's Day with parades and the wearing of the green. Many will indulge in the traditional Irish meal of soda bread, corned beef, and cabbage. In fact, over 300 historic landmarks in 50 countries "go green" on this day. Some of the countries that celebrate the holiday are Malta, Russia, Bosnia & Herzegovina, Scotland, Switzerland, Lithuania, Japan, Korea, Malaysia, Montserrat, Mexico, Argentina, and even the International Space Station! Until the 1970s, St. Patrick's Day was consid-

ered a religious holiday and the pubs were closed. However, the Irish government thought it a good idea to use St. Patrick's Day as a tourist attraction to showcase Irish traditions and culture to the world, and opened the pubs.

Personally, I feel that it would be nice if the tradition and culture of the Irish were more emphasized, and people educated to some of the contributions the Irish have made. On the other hand, who can argue with the world wanting for one day to be a little Irish, have a little merriment, wear a little green and dream a dream of a better world?

I will close with the first stanza of an old Irish prayer:

*May the road rise to meet you,
May the wind be always at your back.
May the sun shine warm on your face,
The rains fall soft upon your fields.
And until we meet again, may God hold
you in the palm of His hand.*

Happy St. Patrick's Day, everyone!

SUN CITY SUMMERLIN GOLF CLUBS 30+ YEARS ON THE LINKS

From the first charter, Men's 18 hole in 1991, to the last golf charter in 1996, the Sun City Summerlin Golf Clubs keep the ball in play at the communities three golf courses, Eagle Crest, Palm Valley and Highland Falls

The primary objective of all five clubs is always golf. But, beyond that, it is to lead an active lifestyle and to enjoy camaraderie and fellowship. One of the most important factors is the support of the members on and off the golf course. During a regular year there are plenty of activities within each club to keep one busy beyond the golf course.

All clubs' welcome new members and are always willing to help one more person hit the links and enjoy one of the best amenities of Sun City Summerlin – GOLF.

Between the Men's 18 hole, Women's, Men's Niners, Ladies Executive and Guys and Gals Golf clubs, they played 15,200 rounds of golf in 2020. Even with a 45-day hiatus due to COVID-19.

So, if you are new to Sun City Summerlin or it is the time for you to get out of your chair and explore what playing golf can do for you, just call, and ask, "How can I get started playing golf?". You will not regret it.

- By Sharon Bishop/Link

GOLF, MEN'S NINERS

The Men's Niners Club started in the mid-nineties, for Sun City owners who only wanted to play nine holes. This gave people who had not played a lot of golf, and some who just wanted to play Nine, a group to play with. Over time, it has developed into a golf group for a lot of older players who have limited skills or medical issues that prevent them from playing the game as they did in their younger days. They are just as competitive but have lost some of the distance they used to have. They have all proven that golf is a lifetime sport, some of our members have played until they reached 100 years old. The Niners Club has around 125 members. In a normal year, we play 50 tournaments on our three golf courses. We have two championship tournaments a year, two picnics, and one big Christmas party. The most important thing, all members understand the score is not the most important thing, getting out on the course is.

WOMEN'S GOLF CLUB

Much like the U.S. Mail, the Sun City Summerlin golfing ladies show up regardless of the weather. Be it 112 degrees or 32 degrees, they are bright-eyed and beautiful and ready to play! The roots of this organization started growing back in 1990 when Linda Shelley and Jackie Manuel

organized the first ladies' group. Many of those pioneers were brand new golfers. They recognized the camaraderie and fellowship benefits sharing 4 hours in blue-skied sunshine roaming our three challenging golf courses. Some excelled, some were just along for the ride, but golf is a game that can be shared and enjoyed by all skill levels. Back in those early years, the Sun City Summerlin Women's Golf Club was over 200 strong, the largest active club in the valley, and a force to be reckoned with in the Las Vegas golfing circuit.

Today, the club has 135 members with newcomers joining every month. The 'newbies' are assigned to a buddy who shows them the ropes and introduces them to our gals and our great staff. It doesn't take long for them to appreciate what a treasure we have here. Our play day is Tuesday and every week we have a different game and are paired with different players, allowing us to get to know everyone. We also meet on the second Tuesday of each month for a general membership meeting and lunch – currently interrupted by COVID-19 restrictions. While a golf group, the members are equally supportive off the course and, along with finding that lost golf ball, you are sure to find a friend as well! Come play with us!

LADIES EXECUTIVE GOLF

The Ladies Executive Golf Club is a relaxed, fun-loving group of women pursuing an active healthy lifestyle. Our club plays 18-hole golf tournaments on Tuesday mornings at Eagle Crest Golf Course. There are currently 76 members in our club which consists of beginning golfers to advanced players. The

group was chartered as a Sun City Summerlin Golf Club in 1991. Originally, the women golfed 9 holes each week, rotating between Palm Valley Golf Course and Highland Falls Golf Course. In 2001, in order to have a consistent day and time to golf each week, the club moved to our beautiful Eagle Crest, par 60 executive golf course. This allowed the women to play 18 holes, which is needed to establish a handicap and a requirement, if a golfer wants to play in any of the many tournaments available throughout the Las Vegas valley and beyond.

In addition to the weekly tournament play at Eagle Crest, there are several social activities offered throughout the year. A putt-putt contest, an overnight golf trip, a club championship and luncheon, holiday party, the invitational golf tournament. We also have a once-a-month fun scramble, followed by a general meeting and luncheon. The Ladies Executive Golf Club welcomes new women interested in enjoying a fun day of golf and making new friends. To learn more about us visit our website at www.scslegc.com. -By Peggy Calhoun

GALS AND GUYS

So, who would've thought that a group of social golf enthusiasts would become a successful golf club some 40 years later? Well, that's what happened. Founding couples, Ted and Linda Skelly, and Jim and Jackie Manual, started playing on a Friday afternoon and into the evening with friends. Two couples morphed into four, then eight, and eventually in 1992 they requested to become a Chartered Club. They were named "The Couples Club." Since that time, we are now known as "The Guys & Gals Golf Club."

We now have close to 200 members playing once a month on a Sunday. Our skill levels range from single-digit handicappers, to as challenging as 50. The nice thing about the handicap system is that a very good golfer and a trying hard golfer can have the identical scores at the end of their round and the high handicapper can actually win a round of golf. We play by the rules and rule number one is to have fun. At day's end (before COVID-19), we usually frequent the community restaurants, break bread, share stories about how well they could have played if that water and sand trap had not grabbed their shots.

It is a great venue for new community members to meet a great group of people. New lifetime friendships have been formed from Guys & Gals weekends that continue to this day. - Amos Barcus

MEN'S 18 HOLE

The Men's 18 Hole Golf Club started almost simultaneously with the beginning of Sun City Summerlin in 1991. The purpose is the same today as it was then, "to have some fun with your friends playing golf." We are very strict with the rules of golf and the demeanor of our players. Good sportsmanship is a must. We obey all the rules and play every Thursday. We alternate between Highland Falls and Palm Valley golf courses. We love our courses and regularly try to help keep them in good shape by volunteering to put sand down all over the divots on the course before teeing off on Thursdays.

Our Club meetings are usually held with food to attract new participants, and we try to also have a few special days of golf (home and home) with other men's clubs from other courses. Unfortunately, COVID-19 put an end to that for the time being, but we keep in touch.

Our President's pictures are on the walls of the Palm Valley clubhouse. Some of these pictures date back to almost 30 years ago. Unfortunately, some of those pictured are no longer with us. We enjoy new members, and we are actively recruiting. Hopefully, they may become a president or two. Phil Kapsimallis is the new President for 2021.

Golf has gotten a little more complicated with computers and digital communication. But the friendships displayed on the course are what we are all about. -Joe O'Connell

WHO IS A GOLF COURSE

Not the 1st starter on a pro-sports team,
Not the beginning of sour dough bread,
Not where you put your key to start the car,
and

Not an American clothing manufacturer.

However, the Starter is the person who controls the pace of play on the golf course by directing players to the first tee at the appropriate time. They are the information booth, responsible for imparting information regarding the tees, scorecards related to golf play and explain Handicapped rules. For this, they need organizational and communication skills.

Moving into the Starter/Ranger position, the skills and abilities include working knowledge of the game of golf (rules and etiquette), maintaining the speed of play logs by recording each cart number by group and records time at each hole. Also, they

communicate with the pro shop to keep them informed of play progress and special circumstances. They are also responsible for maintaining proper use of all carts to protect the course playing surface and equipment as well as the safety of all players.

They monitor and advise groups that are not keeping up and encourage players to properly repair their divots, ball marks and to properly rake sand bunkers after use. The Starter/Ranger is also responsible for monitoring players for appropriate attire and golf shoes, keep players off the playing and practice surfaces during frost delays. Yes, it can happen in Las Vegas. Their work encompasses an environment that has risks and discomforts of typical outdoor environments. They work in all types of weather and are on their feet for most of their 4-to-5 hour shift. All while watching out for the errant golf ball.

They must have the ability to become and maintain a 2-year

SE STARTER/RANGER?

certification in CPR by the American Heart Association Standards and be ready, willing, and able to perform until assistance arrives. Also, First Aid certification is required.

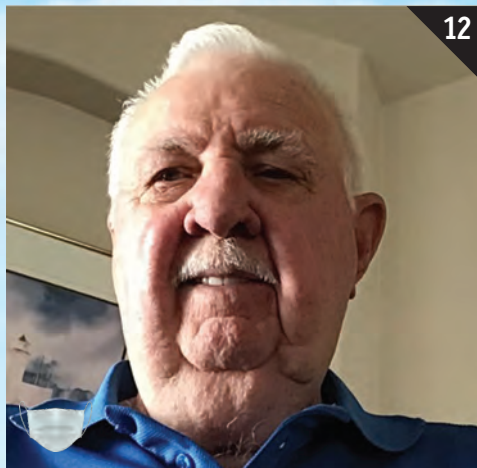

So, the next time you think that golf is just a ride in the cart and a game of hitting a ball with a stick, think of all that goes on before a person even tees off the first hole. The Starter/Ranger position functions like a well-oiled machine and keeps the game of golf moving down the fairway for the enjoyment of all.

Smoke Alarm Update

The Good News . . . and then

The good news is that COVID-19 vaccinations are happening. Almost 5,000 in the last two weeks in Sun City. And the Governor will be easing some restrictions soon. Cases and hospitalizations are down. Light at the end of the tunnel.

I mention COVID-19 because that continues to impact our smoke alarm installations in a big way.

- We stopped in mid-March with 4-6 weeks of installations yet to happen.
- We restarted in October – for two weeks before COVID-19 shut us down again.
- The Governor's "pause" pushed us back to mid-February.

Our smoke alarm program is owned by Las Vegas Fire and Rescue. The same fire service people who do smoke alarms are the same people who are helping vaccinate Las Vegas. And COVID-19 vaccinations take priority over smoke alarms.

I spoke with Zach Collins, our fire service installer, today at the Desert Vista vaccination clinic. He says it will be "at least 60 days" before they can get back to smoke alarms. They will still have to come back to Sun City to deliver 2nd shots. The next few weeks they will be staffing a clinic on the under-served East Side of town. Then they'll have to go back to give those residents their second shot. (We take pride in that they've laid out those clinic procedures on what we've been doing here in Sun City. We are considered a model "Point of Distribution." A big 'thank you' to the resident

volunteers inside the clinic and those outside managing people as they enter and leave.)

To summarize:

- Smoke alarm installations will resume sometime after mid-April 2021.
- The first installations will be for those residents who have been waiting a year. That should take about a month.
- Sometime after mid-May we will start doing people who applied in October of last year. We will have about 2 months of work to finish these people.
- At some point this summer we will re-open the application process.

We appreciate everyone's patience. Short of more waiting we can offer two other choices.

- We can refund your money. But that puts you at the back of the line, waiting to reapply.
- We can deliver the smoke alarms needed for your home and you can work with a handyman to have them installed. Please note that labor costs for our program are zero. We work with volunteers, and fire service personnel are paid by the fire department. We cannot cut you a check for your labor costs.

The fire chief has assured Mitzi Mills, Sun City's Executive Director, that smoke alarm installation is his highest priority after COVID-19 vaccinations. This program will continue.

GRATITUDE CORNER

Some examples of why SCS is the most incredible place to live!

Send your nominations to scsspirit@gmail.com

I love living in Sun City Summerlin. I knew it when I moved here – I know it more every day. I love the lifestyle, the activities, the community - the variety of the people, all generations, all backgrounds. Of course, I love all my friends here, however, I have come to have a special appreciation for the older generations. I have found such deep friendships, perceptive wisdom, and caring outlooks on life . . . full of life and enjoying each day. So, here is our gratitude to some of those who offer their wisdom and caring to all of us. I asked them to share some of their insights with us.

Marty Bercow

1. History: I was born in New York and moved to California as a child. I served as a medic in the Navy in Japan and Korea, followed by a station at a California hospital. I met my wife Sandy, and we got married and had three boys (a single and twins). After the Navy I went to college at Valley and UCLA. I always wanted to be a teacher and loved every minute of my 27 years in the classroom. Sandy and I moved to Sun City Summerlin and that's the life that we wanted. I was blessed to have my Sandy for almost 60 years before I lost her, as she lost her valiant battle with cancer.

2. Most Important: I think that is to just be kind to everyone and listen to what others have to say. Tell the truth and run your life the way you think is right and treat others the same way.

3. Advice: I think the advice I would give to the younger generation would be, whatever you do just do the best that you can and be kind to others. Pick an occupation that you like

because you will be really good at it. Just listen to your heart.

4. Good Friend: A good friend is someone that will listen to you. In case of need, that person will be there as soon as they can, and they know that you will do the same. Someone you can call any time day or night.

5. Enjoy Life: I think the best way to enjoy life is to just be as happy as you can and make sure that you laugh as much as you can. I think the best way is even with bad things going on, look at the positives. All things will hopefully turn out the way you want. Take a vacation when you can, while you can. Don't put things off.

6. Best in Life: The best things I have done in my life is:

- a) Getting married to my wife Sandy and having three children.
- b) Running my life, the way I wanted to.
- c) Having made good friends.
- d) Making a good life for myself and finding Judy to be with.

7. Remember Me: That is hard for me. I just would like people to remember me as a good person and that they were glad to have made me a friend.

Earle Malkin

1. History: A retired lawyer and Army officer, living in Las Vegas in our 25th year. We moved to Sun City a little over two years ago because our old home was too big for us. We were looking for a community that had activities as we are really old.

2. Most Important: The most important thing I learned in 90 years, is to be your own best friend and all that it entails.

3. Advice: What Shakespeare wrote, "to thy own self be true", and you cannot be false to anyone.

- 4. Good Friend:** A good friend is a confidante, intelligent, understanding and someone whom you trust implicitly.
- 5. Enjoy Life:** The best way to enjoy life is to disregard the small stuff and look for that which pleases you.
- 6. Best in Life:** Marrying my wife.
- 7. Remember Me:** As a person of good character who embodied the highest level of trust.
- 8. Other:** Enjoy whatever life has provided you and share happiness with as many people as you can.

Ken Caroccia

Ken and Curly

History: I was born in New Jersey, and we moved to Southern California when I was five years old. I worked as a Store Director for Ralphs stores in Southern California for 40 years. My wife and I visited my aunt here, and we realized that this was the place to retire. We bought our house in Sun City in 2003. I've been here ever since, and I loved it so much that I wanted to give my time to this great community. I served on the Board of Directors for 14 years, and I have also been on the ARC (Architectural Review Committee) and the Security Patrol both for 17 years. This community is the best place in the world to retire. You can be as social and busy as you care to be, with all our wonderful amenities and Clubs.

- 2. Most Important:** I learned that life is short. To be able to sleep at night knowing that you were honest and fair to everyone you come in contact with each day, is important.
- 3. Advice:** Remember to be kind to your elders because, that will be you sooner than you think. Do not be selfish and share

1.

with others who may not have as much; be kind – the rewards are fulfilling.

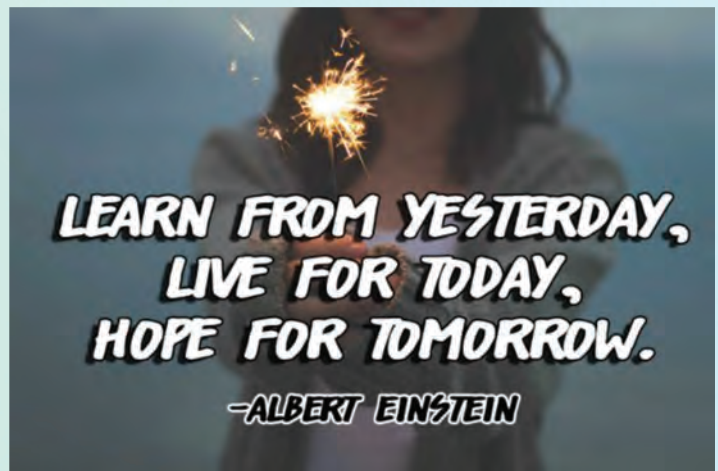

- 4. Good Friend:** Someone that will be there when you really need them. Someone you trust with your life. Someone who has your back.
- 5. Enjoy Life:** Life is to do whatever you can to make yourself and others happy. Generosity in the form of giving to others who do not have much or giving of your time to help out someone or some organization can bring joy to your life. Putting a smile on someone else's face can make you feel very good.
- 6. Best in Life:** The best thing I have done in life is to have brought my son and daughter into this world.
- 7. Remember Me:** That during my time on earth I contributed to making the world a better place. I hope people will say that I was trustworthy, honest to everyone, kind and helpful.
- 8. Other:** I enjoy living my last days in such a great community with so many wonderful residents whom I believe think a lot like me and want to enjoy their retirement. At the end of the day, to be living here, especially with all that's been going on, is a blessing I'm ever so grateful to have.

See! Amazing people, valuable insights, sharing and caring and they truly are very special people. You are lucky if you know them . . . these people are certainly worth knowing. Thanks to each of them for adding so much to Sun City Summerlin and for making this such a fabulous place to live.

That's it for this month! Don't forget to send your Gratitude Corner stories to scsspirit@gmail.com and let's make those special people feel really special thanks to you!

ST. PATRICK'S DAY IS COMING

Poem by Patti Tripp/Link

*St. Patrick's Day is coming and will soon be on the scene
when you don't have to be from Ireland for the wearin' of the green.*

*Your family tree isn't important; it's celebrating in your heart,
whether French, or Czech, or German - it seems we're all a part
of the Irish celebration, an excuse to hoist a beer
and toast an Irish blessing as "Danny Boy" now fills our ears.*

*There were never snakes in Ireland, yet myths still come and go
and no one's seen a leprechaun - just wanted you to know!*

*But that never seems to matter; it's a day to just rejoice,
sing "When Irish Eyes are Smiling" and join in to add our voice.*

*May we just enjoy the moment, and be able to have some fun
and even if you're not Irish, for the day, pretend you're one.*

*Though the Blarney Stone's in Ireland, its magic can be heard
when a friend displays their gift of gab, as we hang on every word.*

*And now with social distancing, the pubs may well be bare,
but there'll be a quirky Facebook post showing
someone with green hair.*

*Let's face it; we've a ways to go till any normalcy's returns
to the maskless days of gatherings, the times for which we yearn.*

*You needn't be Irish or Catholic to celebrate the day
just a little sense of humor, and to do it your own way.*

*Our DNA doesn't matter - so while parades have come to an end,
we need to have some fun these days as our
world finds ways to mend.*

*While four leaf clovers may elude us, we hope someday we'll find
good fortune mixed with kindness, for the world
for ALL mankind.*

*May the Luck of the Irish be with you
and God's blessings come to you
regardless of where you hail from,
have a Grand St. Patrick's Day!*

Susanne Rowe

When asked as a child, "what do you want to be when you grow up?" Sun City Summerlin resident Susanne Rowe would reply, "a paleontologist." She dreamed of searching the desert for dinosaur bones. Today, Susanne works in a related field and loves her job. She is presently an archaeologist.

A Master's Degree in Anthropology, specializing in Archaeology from the University of Nevada, Las Vegas, led Susanne to work more than twelve years for the Bureau of Land Management. Susanne was the District Archaeologist in Southern Nevada for seven years before moving to Arizona as the Bureau's Deputy Preservation Officer (also known as State Lead Archaeologist).

Susanne Rowe

In 2014, Susanne retired from the Bureau, and it was at that time she moved to Sun City Summerlin to become a loving caretaker for her father, Alfred Rowe. Many here may remember Alfred as one of our World War II veterans honored in the Link magazine and its 75th Anniversary D-Day Invasion publication, written by Bob Cohen (former Link columnist). Sadly, Alfred passed away in 2020.

With the move to Sun City, Susanne was now back in her "beloved Mojave Desert"—her words. During her time working in the Mojave, Susanne has conducted inventories at Nellis Air Force Base where she once worked in a fenced compound posted "The Use of Deadly Force Permitted." She also conducted inventories out on the remote Nevada Test and Training Range near enough to permit lunch at the Little A'Le'Inn

located in Rachel, NV. We all know that means in, or very near the mysterious Area 51. As a "compliance" archeologist, she works to ensure that areas for proposed development are inventoried for cultural resources, such as rock shelters, campsites, trails, early mining sites, historic and prehistoric artifacts.

It is interesting to note that, on the way to her dream job, Susanne had many incarnations. She began her studies at the University of California Davis, as an Animal Science major with the focus on pre-veterinarian studies. A field trip to a slaughterhouse ended that particular career goal very quickly. She earned her bachelor's degree in Geography. However, the many science classes she had taken while an Animal Science major helped her land an early job as a Pharmacy Technician at Methodist Hospital in Sacramento.

Petroglyphs

Ox shoe

Next, she was a graphic artist working for newspapers and magazines in California, Washington, and Nevada. She designed ads for The Sacramento Bee and The Las Vegas Review-Journal. Susanne was also a copywriter for an ad agency, writing news releases, advertising copy, marketing brochures, and magazine articles.

Working with paleontologists at what is now Tule Springs Fossil Beds National Monument, Susanne decided that though her earliest wish was to become a paleontologist, she was and is happy she is an archaeologist. Though fossils are interesting, Susanne would rather

study the survival skills of early humans in our harsh desert setting. Two finds of which she is particularly thrilled are, a prehistoric pottery fragment that has a perfect fingerprint fired into the clay and an ox shoe having fallen from an ox sometime between 1860 and 1925. The ox shoe was found just north of what is now the Las Vegas Motor Speedway.

In the future, Susanne hopes to share her experiences with fellow Sun Citians in a lecture series. May the "new normal" after COVID-19 afford Susanne the opportunity to do so.

STORIES OF SERVICE BY NORMAN WRIGHT

WILLIAM BESTO: NAVY

Bill recalled that when he was 17 years old, he drove fast cars and racked up 13 tickets in Tacoma, Washington. Not liking the college scene, he quit in 1969 and tried to join the Navy, however, due to his driving record he was not accepted until the recruiter realized he didn't make his monthly quota.

In January 1970, Bill left for Boot Camp. "The yelling started as soon as I got off the bus, everything was a 'hurry up and wait hell' and that continued throughout," Bill said. "They were breaking us down as individuals and getting us to do things the Navy way."

After Boot Camp Bill was assigned to Bainbridge Maryland Training Center's Class A Yeoman School. "Everyone called me lucky saying, east coast schooling meant I would be sailing the Mediterranean. Lucky? Out of my class of 40, I was the only one transferred back to the Pacific." Bill's first sea assignment was on the destroyer USS Dennis J. Buckley, which sailed off to the coast of Vietnam rescuing pilots and firing on gunships that fired back. "A Yeoman is the Navy's 'Radar O'Reilly,'" but a destroyer is a small ship, and we had many jobs to do," said Bill. "One of mine included being on front-deck duty when we were anchored in the Mekong Delta. Although I didn't know it at the time, I was repeatedly exposed to Agent Orange while standing on that deck."

Bill returned to San Diego in July 1971 and was soon transferred to the USS Gurke, which sailed to the Philippines, Thailand, Hong Kong, Japan, and Vietnam, where he participated in two major battles. "One night when I was sleeping, I was jolted awake. A shell pierced the bulkhead two inches above my ear. If my head was on a thicker pillow I wouldn't be here."

"When we were in port, I partied good," Bill recalled. "Once, I met up with some old buddies from the Buckley and I partied so good, that I missed my morning flight to Subic Bay for TAD on the destroyer USS Lang. By the time I got there, it already set sail. For the next two weeks, my only assignment was to take muster, but then the carrier USS Kitty Hawk ferried me to Danang for another Vietnam duty tour."

The USS Gurke was also a station ship in Hong Kong. Station ships carried out all of the official communications for the United States Embassy. "Radio operators were the only sailors on regular duty, and I got a lot of liberty. My buddy

Continued on page 38

Continued from page 37

introduced me to a young lady, and long story short, in October 1973, my Captain gave me a wedding present, a helo ride to a ship headed to Hong Kong, and I married the most beautiful woman." "We're still married and have two lovely daughters," Bill said.

Bill was Honorably Discharged with numerous medals in January 1974. "I used the "G.I. Bill" to go to school and became a computer programmer on old, oversized IBM machines, the kind that used punch cards, vacuum tubes and were the size of a building," Bill said. "Computers were modernized, and I repeatedly changed jobs and eventually became an Information Systems Manager for the Tacoma Police Department in 1988, but by 1995 I was burned out."

Bill went on to help his parents build a mini market/gas station that he and his wife ran until his health deteriorated. "We sold it in February 2015 and moved to Sun City that May."

"The VA determined that my Agent Orange exposure contributed to my health problems, and I was also told to see a psychia-

trist. I distrusted her at first but after gaining confidence and learning to be honest with myself I was diagnosed with PTSD. The report the psychiatrist wrote about me was eye-opening," said Bill. "It explained why I constantly changed jobs, repeatedly moved, and why I would get frustrated and mad all the time. After starting treatment my wife said she noticed a big change in me. She was an angel to put up with me all those years. My recovery was not quick, nor was easy, and it wasn't until 2019 that I started feeling good about myself."

After moving to Sun City, Bill became involved with the Las Vegas Chapter of the Vietnam Veterans of America and is now on the Board of Directors. "Our chapter has 225 members who meet and support each other. We have a store that sells Vietnam era shirts, hats and other memorials and we raise money to donate wheelchairs and other equipment to Vietnam Vets in need," Bill added.

Any Vets who served during the Vietnam War era, even those who did not actually serve in Vietnam, are invited to join. For details, please contact Bill at (702) 281-1609.

Perspective and Patience

By Alan G. Spector /Link

By the time you read this, you and most of your friends might be close to or already have had the 1st Covid19 vaccine shot. You might be renewing plans to travel, go out, eat in, socialize, throw a party. I'm thinking, this is exactly the time to use

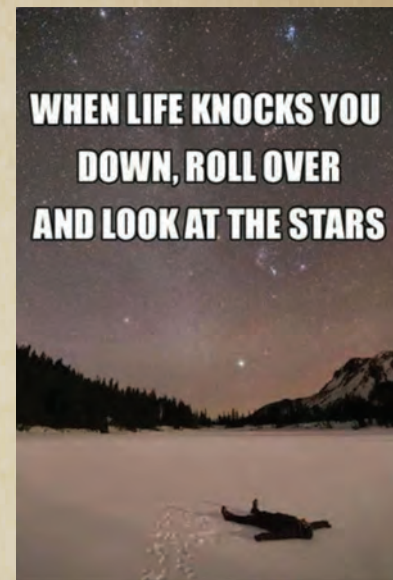

fill the emptiness with "negatives." We CAN separate ourselves the bumps in the road and embrace the highway ahead of us.

Stage 3 – Articulating Anxiety: If there is anxiety in the heart of a person, articulate it, speak about it... get yourself a friend to share the burden with and lighten the load.

Remember, when the world was created . . . darkness came FIRST, then "Let there be light!" The light follows the darkness, and it was created by a positive pronouncement of creation, hope, and joy. There can be LIGHT for all of us if we will it.

At a Zoom discussion group, I recently asked how people coped with the challenges in life. Talk about wisdom... here are some of their responses.

- Tune out the negative, turn it off
- Exercise – do cardio

discretion and patience. Somehow, sometimes the closer we get to a goal the more anxiety and frustration we experience. Here are some thoughts on how to cope with the anxiety which has been building for almost one year.

Sara Esther Crispe, an inspirational speaker and educator, offers some insights. She suggests 3 Stages to deal with some of the bumps in our lives.

Stage 1 – Suppress It: Cut our anxiety down to size by putting it into perspective. Don't be obsessed by the situation, realize that we are not alone with this situation, and focus on other situations in our lives.

Stage 2 – Ignore It: No, this is not "ignoring the situation," but we can "disassociate" from it. We do not need to define ourselves by our problems. We should never allow a situation to become who we are. Remember, nature abhors a vacuum... if we do not fill our lives with "positives" – human nature will

- Focus on a hobby or business
- Take inventory of your blessings
- Don't let anxiety become your friend
- Rely on your community – we all have the same feelings and same stress
- Ask yourself "What can I learn from this situation (pandemic)?"
- Social support
- Laughter

We don't have to look far for great advice. We will all get through this – together. We need to be patient and keep things in perspective – together. We will all celebrate ourselves and each other – together. Isn't it great to be living in Sun City Summerlin – together?

If you want to join or have questions, call or text Jim Barr at 497-2162 or email bandjamclub@gmail.com.

All rides currently start at 9 a.m. For more information, updates, and current ride start times, email scherry69afa@gmail.com. To view photos from some of our rides, go to www.flickr.com/photos/suncitybikeclub/.

Golf, Ladies Executive

Spring is in the air and a great time to join us for golf. We play 18 holes every Tuesday morning at Eagle Crest Golf Course. In March, our tee time is 7:30 a.m., with check-in at 7 a.m.

New or seasoned golfers are welcome to golf with us for 2 rounds, before joining. Contact our Membership Chair, Sandy Wright at 661-478-0076 for more information. Visit our website www.scslegc.com to learn more and see all the fun we have. Pictured, Golf, Ladies Executive Club January Zoom meeting. Some members attended virtually from Florida and Maui. Club President Patricia Horsfall is pictured center.

Golf, Men's 18 Hole

Gentlemen, we have a lot of members who have not completed signing up for their membership this year. There are two things you need to do: go to our website at www.scsmgc18holers.org and click the "new member" or "renew membership" tab and fill out the forms. Then drop off a check at Palm Valley in the drop box. This needs to be done or you will not be able to sign up for any tournaments until this has been completed. Thank you for your cooperation. For more information, contact Club President Phil Kapsimallis at 818-489-6076.

Golf, Men's Niners

The bad news. . . we do not foresee any outside tournaments for some time. No Club picnics are likely until the fall. The great news . . . we still have golf. We will continue with our weekly tournaments here in Sun City, all starting at 8 a.m., on Thursdays. A reminder: If you haven't done so already, please pay your dues for 2021. Yes, we are long done with 2020. As always, we welcome new members. Applications are available at our golf shops. For more information, contact Pete Bentivegna at 941 223-6550.

Golf, Women's

If you are now, were once, or hope to be a golfer, our SCS Women's Golf Club is exactly where you want to be! The members are fun and supportive both on and off our courses. A "buddy" will be assigned to you to show you the ropes and introduce you to our members and our fabulous golf staff. Our play day is Tuesday mornings from 7-8 a.m., depending on the season. We usually have a monthly meeting, with lunch. To join or for information, visit our website at www.scs womensgolf.com or call Vice President Diane Riggs at 661-303-7232 or nanadriggs@gmail.com.

Gun

The COVID-19 crisis, and in person meeting restrictions have wreaked havoc on the officer's abilities to perform membership services including membership applications, dues processing, and communications. We are working on shoots at the Clark County Shooting Complex for 2021. Whether new to firearms or an old hand in the shooting arts, our Club is for you. Membership

Liberal Club meetings are normally held on the first Monday of each month. Model Builders

Our next meeting will be held on Wednesday, March 11, at 10:30 a.m. The meeting will be held via Zoom. Currently, there are no other meetings scheduled. We aim to provide a creative environment that allows our members an opportunity to achieve excellence in scale model building (plastic or wood) and enjoy model railroading. Club members are also involved in leather crafting, wood carving, and doll house building. We welcome new members who are interested in working in wood, plastic, or leather, or who would enjoy running our new and fantastic HO Model Railroad. For information, contact Bruce Adams at 463-9921.

Musicmakers

We hope to have happy music sounds from the Musicmakers. We are happy to have new residents and existing residents, sing four-part harmony with us. Due to COVID-19, Musicmakers are not able to begin rehearsals yet. We still have a song in our hearts (and possibly the shower). Hopefully, it won't be too much longer until we can start singing together again. For information, contact Darlene Vaughan at 307-330-8421 or popoagieranch@hotmail.com. *Pictured, Musicmakers: this is what we would look like since we are restricted by COVID-19. It would be very hard to sing with masks on and have muffled tones!*

Neighborhood Preparedness Team

The community organization is dedicated to advance safety education to Sun City Summerlin residents in response to consequences of a natural, industrial, or criminal-related danger. The Team promotes safety techniques in a partnership with the Las Vegas Metropolitan Police Department. Approximately 100 resident volunteers lead neighborhood watch teams that oversee properties on 85 streets throughout Sun City Summerlin. For information, call Erik Braun at 608-385-3558 or email nptscs@gmail.com.

Are you from New York, New Jersey or Connecticut? Or like socializing with people from there? Or talking about your Tri-State area experiences? We will reconvene our meetings as soon as we are permitted. We usually meet on the first Wednesday of each month at 7 p.m., at Desert Vista. 2021 dues are waived for all 2020 dues

Theatre (Community)

Remember the saying, "the world is a stage, and we are all actors"? We wish we were able to perform, but COVID-19 is saying "see you in September." Here's what you can do. When you're in line for groceries, you be the actor. Tell a joke, or quote something from a play or movie. Represent our incredible community by being our "outdoor actors." Who knows, you may want to join

us when we start our meetings again. Stay safe and start acting, you won't regret it! If you just want to talk, call me and we can tell jokes to each other. Contact Howard Shapiro at 798-7069.

RFP #21-30 Desert Vista Parking Lot West Slope – Landscape

This is an unbudgeted operating expense, which is deemed necessary per the recommendation of our insurance underwriter that the classification of our landscapers

and the specialty equipment and training required to work on a slope with a drop off is not covered under our insurance and would require reclassification and specialty insurance or a redesign of the area, both which are very expensive.
