PRESIDENT'S MESSAGE

The warm weather is upon us, and just in time. We are in the beginning stages of reopening our community's amenities that COVID-19 had forced us to close a year ago. A few of our amenities were reopened with safety restrictions, after a six-week shut down a year ago. Now, with appropriate safety restrictions, more and more of our facilities are returning to "normal" usage. It is great to see clubs planning meetings and activities that their members, our residents, can attend. As a community, we will take all necessary precautions, but it is a great feeling to be moving forward again.

The final round of vaccinations is completed, and our goal of having everyone in Sun City who wanted to be vaccinated, to be afforded that opportunity, has been completed. Once again, our volunteers have been outstanding. The Board and residents cannot thank the staff, and volunteers enough for their unselfish giving of their time and kindness. I especially would like to thank the Security Patrol members who, about six weeks ago, stood out in the cold, rain, and snow for two days.

The Board has completed its work on the budget, and the Finance Committee has made its recommendation. All information regarding the proposed budget is being forwarded to the residents. It is being mailed again this year, because of the precautions still being taken to mitigate COVID-19 exposure. The new committee appointments have been made, and I was very pleased when so many new members of our community volunteered to be on some of our standing committees. We, like all volunteer organizations, need a steady flow of new volunteers to bring new ideas and energy to our community. We do maintain a list of residents that would like to volunteer for a particular committee. If you would like to volunteer, notify our Executive Director, Mitzi Mills, and she can add your name to the list.

Now that the better weather is here, and we are opening more and more of our facilities to renew activities, we should not get careless. Until we are notified differently, please wear your masks, maintain social distancing, and respect the health concerns of others. Hydrate, especially as it gets warmer, and then down right hot. We all need to get back to the habit of carrying and drinking fluids, especially water. Be well. Be safe.

ON THIS

Mothers DAY

I have always believed that my mom is the most amazing person I have ever met. Even from a young age I was in awe of her creativity, stamina (I never saw her sleep!), her patience, her work ethic, how deeply she cared for people, and how she always had time for me and my siblings. I also have always thought she was truly the smartest and most elegant woman I have ever known, only rivaled by her sense of humor and poise. I met Rhoda Ring about three and a half years ago, and for

the first time in my life, I met someone who was my mothers equal when it came to elegance, brains and caring. I feel so blessed to still have my mom in my life and to have met and gotten to know Rhoda. Rhoda's commitment to Sun City Summerlin is inspiring, she never lets any of us forget what a wonderful and beautiful community this is and how lucky all of us, Owners, residents, and staff are to be here. Her voice that we need to always be updating and renovating to remain the "gem" of all communities is a mantra that echoes through my mind every time we look to future projects. I look forward to being able to see Rhoda once again at in-person meetings with the same anticipation and hope that I feel when planning to visit my parents. Happy Mother's Day to my Mom and to Rhoda.

A REMARKABLE STORY OF A REMARKABLE WOMAN: 97 YEARS YOUNG

Lovingly Written By Pamela Joy Ring

My mother, Rhoda Ring, is a remarkable person. Not just because she is my mother (and she is remarkable at being that!), but because she has lived a fascinating life. A life which she made filled with experiences and opportunities that she created, which most women of her time could only have dreamed about. She and my beloved father, Dr. H. Raymond Ring, (Ray) moved to the SCSC from the East in 1999. Today, Rhoda is 97 years young and is still making remarkable history.

IMAGINE NEW YORK CITY IN THE LATE 1930'S & WARTIME

In an unprecedented fashion for young women of the day, Rhoda attended NYU'S School of Commerce on a full scholarship graduating Number One in her class and receiving many scholastic awards. But, she had to work to supplement room, board and books. She also sent money home monthly to help support her parents. She never stopped. She graded papers, sewed women's

hats, and in taking on additional work, she even collected money for a Madame from the Madame's "patrons." At Rhoda's graduation, Madame attended, she cried and cheered with joy for Rhoda's accomplishments along with Rhoda's mother, Fannie. During and after college, my mother lived in Greenwich Village, a very "forward" move for a nice girl from Hackensack, New Jersey. Along with her roommate, Mary Lou (a Kansas girl who was a dead-ringer-look-alike for Doris Day), the two got into "Lucy & Ethel" situations before there was Lucy & Ethel. From their girl code of eating only half the dinner on a date and bringing the doggy bag home for the roomie, to having the one not on a date dressing up like a grandmother in a rocking chair when a suitor of the other came to call.

1940's-1990's: 50 YEARS OF INNOVATION & INSPIRATION

"Seventeen Magazine," Revlon's "Rosy Future" Nail Color, "Women's Wear Daily", Radio Hosting & Decorating Homes & Offices In New Jersey, New York & Palm Beach.

Seventeen: If there is one continuous thread that follows in all of my mother's drive and professional accomplishments it's, in her own words that, "I'm an *idea person*." My mother is a woman that has always identified untapped needs and opportunities in her work. She characteristically sees possibilities and is so optimistic. As a fresh ingénue out of college, she landed a job with the prestigious PR impresario, Bert Nevins. "He was tough, but gutsy and brilliant," according to Mom. Walter Annenberg and his Triangle Publications was a client. At a corporate meeting with Annenberg in 1943, young Rhoda raised her hand as Annenberg was pounding the table looking for new money-makers to add to his empire. She presented the idea of creating a magazine for teenage girls who had income from war factory work, but had no fashion magazine or clothing lines that were made for their lifestyle. She suggested the name, "Seventeen" as Booth Tarkington's Pulitzer Prize-winning novel's title had just been reverted into public domain, and she suggested that Annenberg take one of his movie star magazines, "Stardust," keep its "S" name it "Seventeen" and create content for the teenage girl fashion market. The rest is history.

Revlon's "Rosy Future" Red: Revlon was another client of Nevins. At the same time of Mom's IDEA with "Seventeen" she worked on the Revlon account. Revlon had just launched the innovative product and marketing idea of pairing nail color with lipstick color. Lipsticks were a relatively new product to the Revlon brand. The duo idea prompted an era of Revlon's rollout of a pallet of reds, the most fashionable and demanded color at the time. It was the peak of the war, and "Rosie the

Riveter," was the character who personified women and teenage girls working in the factories manufacturing supplies and armor to support the war. Mom suggested, "Rosy Future," a name of the pairing of reds which personified melding real people and the cosmetic color together. That was a relative first. She also suggested the spelling, "ROSY" because it spaced out better on the label than "ROSIE" and conveyed a positive future outlook in the face of the war.

"Women's Wear Daily," Teen Timer's Fashion & Teen Timer's Radio Hour: "Seventeen" became the "Fashion Bible" for teenage girls during the forties (and has lasted as such until the 1970's). Finally they had their own platform which spoke about their lifestyle and fashion preferences. Tying into that platform, my mother developed channels of communication which solidified the young girls' lifestyle market. Mom created a fashion and media brand named "Teen Timers". She was an innovator relative to today in pairing communication portals for branding. In her case, she collaborated with apparel manufacturers for teen age girl fashion and created and hosted a nationwide radio program every Saturday morning over WOR Radio named, "Teen Timer's Radio Hour." Mom travelled the country and discovered and interviewed such pop up-and-comers as Sarah Vaughan and Gordon McCrae. She appeared on the cover of "Women's Wear Daily," and was featured in many of its articles as the voice of teenage girl fashion.

The Consummate Interior Designer: Rhoda turned to Interior Design after marrying my father in 1947. She has and had a talent for style and trends and an ability to mesh designs and architecture together, always with a regard for her clients' needs, tastes, pragmatics and budget. She knows how to temper good taste while being respectful of her clients, guiding them to avoid mistaken design decisions. That's a very delicate dance she did so well and the end result was beautiful. She always made her clients believe the outcome was their vision and idea! Of the hundreds of homes and professional offices she designed, I smile when I think that her life came full circle when in the 1970's the Chief Executive of Revlon, Michel Bergerac, called her to design his executive offices and suite at Revlon, New York. What a befitting coda to the young Rhoda's connection with Revlon.

Today, she serves the Sun City Community on the Properties Committee and volunteers her talents in the renovations and physical improvements of its club house and restaurant facilities.

THE BEST OF ALL: A WIFE, MOTHER & FRIEND TO HER COMMUNITY

At the heart of Rhoda is just that . . . her heart. My mother is the wisest, most caring and selfless person I know. I could write

pages of her remarkable ability of selflessness in her care for her family, friends and causes. I'm not given the page space. She and my father grew up together in Hackensack, New Jersey. They were married for 66 years and 10 months. Dad passed away on, of all days, Valentine's Day, 2013 at the age of 92. Theirs was an example of love, respect, trust and the sacrament of family. An inspiration to my sister and myself, my mother was a friend and a community participant through-out her life, from giving of her time and resources to the Anti-Defamation League to numerous Jewish charities and synagogues to the Rotary and Park initiatives in New Jersey. But to

my sister Beth and myself, as her daughters, I can tell you that we are blessed. My sister and I are both very accomplished women. Hmmm . . . I wonder where that came from? To have such a woman of strength, love, wisdom and optimism woven into the fabric of who we are is a gift. To have such a warm, giving, loving friend and confidant is a kiss placed forever on our hearts. Our mother is an inspiration to my sister and myself and truly influenced a better world for women today. She is a most remarkable woman and has given us all a remarkable legacy. On this Mother's Day, I am so grateful. May you cherish your Mother as well. Happy Mother's Day.

PRECIOUS MOM

By Esther Louie-Henry

Last night, my loving husband of nine years, Bob, asked me "Is it true that you grew up "spoiled"? I immediately thought about mom, a credentialed teacher at age 19, she married dad in Shanghai, where they both taught school.

In 1920, they emigrated to Northern California with newborn baby. Dad became pastor of Chinese Church of Christ. Both worked on Sundays and taught Cantonese Monday through Saturday.

I remember how mom finished my sewing project (pajamas) and how I received an A+. I remember how mom spent a month with me each time I gave birth to a baby (four times). And I remember how mom babysat our four children whenever my then husband Dan and I took a trip—we covered six continents.

Yes, "Bob", my mom SPOILED me!

VIVIAN BECKER

By Richard Becker

My Mother, Vivian (Johnson) Becker, was born in 1912 and raised on a farm Northwest of Mohall, ND., with one brother and two

sisters. She attended a one room school. She got to school by way of horse and buggy. She married a longtime farmer friend, Roy Becker. She and my father Roy, raised two sons. One of her biggest accomplishments was teaching herself to play the organ by ear. She served on many church boards, taught Sunday School, and played the organ for services. In 2000 she decided to check herself into the Mohall nursing home after developing macular degeneration. She spent nearly 15 years there. She enjoyed gardening, making quilts and crocheting. She passed away in 2014 at age 102.

MOM, WIFE, CAREER WOMAN

By Jo Ann Malkin

Rosemary Bresnahan Mackey, held all those designations with aplomb. The first two were normal for a woman born in the first half of the 19th century; but career woman/executive at a large retail entity demonstrates that she was always ahead of her time.

I was lucky to be her daughter, to observe her in

all the roles in which she excelled. Wish I had shared my appreciation of her more frequently. However, she was also a spiritual being and I feel confident she is looking down and observing my heart-felt love, as well as gratitude for all she said and did.

WHAT IS A SON?

By Patti Tripp/Link, a Single Mother

When I was a little girl, I did not say to myself, "When I grow up, I want to be a single mother". With 50% of marriages ending in divorce, that statistic never entered my mind back then. But that is how it worked out for some of us. Through the years, I was the Mom who taught her son how to throw a football, and why he should NOT adjust his retainer with a pair of needlenose pliers, and simply how to grow into a good man. Not sure why I had even written this back then, but as my son began to grow up and tower over me, I thought about the life we shared. He could be a pain, and a handful, but he was MY pain, MY handful. A Mother's love knows no bounds, even though, be they boys or girls, they can drive you right to the edge! But then, Mothers are a unique breed, we even sometimes surprise ourselves. After losing him, it did not change the fact that I was and always will be Greg's mom, and proud of it. And so, to every Mother, and especially the single Mothers, allow me to share a moment of love . . . no matter what!

"WHAT IS A SON"

A WARM TINY HAND SHE HOLDS IN HER OWN,
THESE FEW PRECIOUS MOMENTS HE'S HERS ALL ALONE.
THEN DIAPERS AND FEEDINGS AND COLIC AND SUCH -
SHE MAY SIT THERE EXHAUSTED; IT ALL SEEMS SO MUCH.
POPSICLES, ROOT BEER, PEANUT BUTTER AND JAM . . .
HER READING NOW LIMITED TO 'GREEN EGGS AND HAM'
THERE'S DIRT IN HIS POCKETS AND GUM IN HIS HAIR,
HE CAN'T GO TO SLEEP WITHOUT SAYING HIS PRAYERS.
SOON BOOKBAGS AND BUSSES AND HOMEWORK BESIEGE
THE EVENING - TIMEOUT - GOTTA GO, LITTLE LEAGUE!
IT USED TO BE HUGS COULD MAKE EVERYTHING RIGHT,
SHE'D KISS AWAY TEARS, TUCK HIM IN EVERY NIGHT.
NOW HE'S CLOSING THE DOOR WHEN HE'S TAKING A BATH,
NO MORE BABY TEETH SMILES, BRACES SHOW WHEN HE LAUGHS.
HIS ROOM IS A MESS - NOT A THING IN ITS PLACE.
HE'S WEARING A PONYTAIL, GROWING HAIR ON HIS FACE.
HE STAYS OUT PAST MIDNIGHT, SPENDS A FORTUNE ON MOUSSE.
HE READS PLAYBOY; JUST WHEN DID HE QUIT DR. SEUSS?
HE'S DRESSED UP, A TUXEDO AND OFF TO THE PROM -
SHE CONSIDERED SUGGESTING - 'YOU COULD TAKE YOUR MOM!'
IT'S TIME TO GROW UP AND SHE HAS TO LET GO,
BUT WHY DO IT NOW, CAN'T HE JUST TAKE IT SLOW.
HE STANDS SIX FEET FOUR, HIS SHOES A SIZE TWELVE,
IT SEEMS LIKE JUST YESTERDAY THIS TODDLER FROM HELL
HAD CONSUMED ALL HER TIME, ALL HER ENERGIES, TOO.
SHE HAD RAISED HIM ALONE, WITH SO MUCH TO DO.
HIS ROOM IS NOW EMPTY, THE POSTERS ARE GONE.
THE HOUSE IS SO NEAT, THINGS ARE WHERE THEY BELONG.
SHE CAN'T UNDERSTAND JUST WHERE TIME HAS FLOWN,
ONE MINUTES HE'S HELPLESS, NEXT MINUTE HE'S GROWN.
BUT SHE'LL ALWAYS BE THERE FOR HIM, NOT KNOWING WHEN
HE'LL NEED SOMEONE, TURN TO HER, AND SEE HIS BEST FRIEND
NOW BOTH OF THEIR LIVES HAVE TAKEN DIRECTION
TO GO SEPARATE WAYS YET MAINTAINING CONNECTION.
FOR A WHILE, ALL THEY REALLY HAD WAS EACH OTHER.
AND WHAT IS A SON? WELL, TRY ASKING A MOTHER.

Mothers DAY

The Link would like to thank all the residents and staff that submitted pictures for Mother's Day. It was truly an honor to showcase them in the magazine this month. These mothers have weathered many storms, been up and down many hills and still managed to the best impression on our lives.

Photos on the cover clockwise: Ken Caroccia, Steve Oliver, Iris Giammaria, Judy Marusa, Beth and Pamela with their mother Rhoda Ring. Inside is Esther Louie-Henry, Richard Becker and Jo Ann Malkin who contributed pictures with loving stories about their mothers. Then for the feature story, on page 7, we have Pamela Ring writing about Rhoda Ring, her beloved mother.

On this page is Jola Oliver and her mother, and Iris Mae Lindo, Kelly Mae Mahoney's Great Grandmother. We also want to thank Patti Tripp for her words and special poem and Valerie Start, Pet Mom for her touching story about Allie. Also, thank you Molly Sher for giving us the scoop on the origins of Mother's Day.

HOW MOTHER'S DAY ORIGINATED

"There is no way to be a perfect mother, and a million ways to be a good one."—Jill Churchill.

Like many traditions, the celebration of motherhood can be traced back to the ancient Greeks who paid tribute to the mother goddess, Rhea, and the Romans who celebrated the goddess, Cybele. The more modern precedent of our American holiday can be traced back to the early Christians (c.100-325) and a festival called "Mothering Sunday."

During the Middle Ages (5th to 15th century), Mothering Sunday was very popular in the United Kingdom. In other parts of Europe, Mothering Sunday fell on the fourth Sunday in Lent, and it was seen as the day when the faithful returned to their "mother church", for a special service held in the main church where they lived.

Mothering Sunday became more secular, and over time the day was used more as an opportunity for children to present their mothers with small gifts or flowers to show their appreciation. Mothering Sunday faded and eventually merged with the American version of Mother's Day,

We can thank Ann Reeves Jarvis of West Virginia, for founding Mother's Day in America. She started Mothers' Day Work Clubs in 1858, just before the Civil War started in 1861. These clubs were designed to instruct women on how to properly take care of their children. After the war ended in 1865, these clubs became a liaison between the North and the South, helping to rebuild common ground in a country divided. In 1870, suffragette Julia Ward Howe wrote the "Mother's Day Proclamation", hoping to promote world peace. Another contributor to the origin of Mother's Day was Juliet Calhoun Blakely, an activist responsible for inspiring a local Mother's Day in Albion, MI, in the 1870s. There were others who also contributed to the formation Mother's Day, including Frank

Herring, often referred to as the father of Mother's Day.

It was Ann Jarvis, daughter of Ann Reeves Jarvis, who spearheaded the goal of making an official holiday for mothers. After her mother died in 1905, Ann Jarvis made it her mission to honor her mother and all mothers on a special day. She received financial backing from the Philadelphia department store mogul, John Wanamaker. In May of 1908, she organized the first official Mother's Day at a Methodist church in Grafton, West Virginia. Mr. Wanamaker also held a Mother's Day event in all his stores, and thousands attended.

By Molly Sher/Link

The irony of this story is, after President Woodrow Wilson signed the measure, Mother's Day became an official holiday on May 9th, 1914. Ann became aware of various businesses like florists, confectioners, card companies and even charities, taking advantage of the holiday for self-promotion. By 1920, she denounced commercialism and worked just as hard to have the holiday removed. By the time of her death in 1948, she completely disowned the holiday and had spent her fortune in legal battles to remove Mother's Day from the calendar.

Just like other holidays I've written about, Mother's Day is celebrated in other parts of the world a bit differently, however, space prevents me from elaborating.

You may or may not believe that Mother's Day is too commercialized, but one thing is for sure; every mother appreciates a phone call (or these days, a Zoom get-together) if you can't be there in person, to hear how her child, no matter the age, is doing.

Fun fact: More phone calls are made on Mother's Day than on any other day of the year, causing phone traffic to spike as much as 37%.

And so, may I leave you all with one last quote.

"To the world, you are a mother, but to your family, you are the world."—Unknown Author.

Happy Mother's Day!

Valerie Starr: Adoptive Pet Mom Shares Her Story of Allie

We adopted Allie from a shelter in rural New Hampshire, when she was already a senior of indeterminate age. Her first week at home with us was peaceful. She spent most of her time on the arm of the loveseat adjacent to my seat, where I did my work as a mental health counselor. She was friendly with the other household cats, but rarely interacted with them, and she steered clear of Rick, a big man with a deep voice.

She seemed to appreciate every little gesture of kindness with a sincere heart. As far as the big man with a deep voice, she decided that she was Daddy's girl. When Rick and I moved to Sun City three years ago, she flew across the country with us, neatly tucked under the seat in front of me on the crowded Southwest plane. Allie took to her new home in the sun without missing a beat. As she basked in sunny places in the living room and watched the hummingbirds that flitted by the big windows. As time went by, she seemed to accept the

changes that came with her advance age. We woke up one morning to a frail and skinny Allie, hanging on by a thread. She spent that long and sad day on Ricks' lap. She let go of her long, long life in the embrace of her favorite human, letting love light her way as she crossed the Rainbow Bridge.

Meet Brandon Balek

Have you ever had a job that you hated? Have you ever been reluctant to get out of bed in the morning because you dreaded going to work? Well, I have. In fact, before I started working here at Sun City Summerlin, it seemed like all jobs were dreadful.

In my early twenties, I worked construction while going to school, which I did enjoy. But then, I moved from Riverside County to Orange County and got a job in retail. For eight years, I was a store manager for a national arts & crafts retailer. I was paid a good salary, plus an annual bonus and stock options. Not bad for a 26-year-old college dropout. But the long hours and teenage employees took a toll on me until one day I had enough. That was when I got into the pool maintenance business.

A friend of mine owned a pool route and had nothing but great things to say about the business. That was enough for me, so I quit my job and pulled money out of my 401k to buy a truck and a pool route. At first, it was great . . . work outside, make my own hours, and the money was terrific. There was just one problem. It did not take long before I realized something rather important. I hated it! I was bored out of my mind. It was the same routine day in and day out, pool after pool. I

rarely saw any of the people for whom I was working, and my brain activity during the day was at an all-time low. Still, I stuck with it for some reason. I stuck with it for nearly ten years. The longer I did it, the more unhappy I became.

In December of 2006, my wife, Kelly, and I decided to move to Las Vegas. Housing prices were more affordable than California, and we had friends who lived here, so why not? Shortly after, the "great recession" hit and new accounts were in short supply. Kelly was an administrative assistant here at Sun City and told me the maintenance department was hiring swing shift custodians. This was great, as I was able to work swing shift for extra money to supplement my income until the economy improved. I was a custodian for eight months when I moved to graveyard maintenance tech. I worked the night shift for three years. The job was only supposed to be temporary, but I enjoyed it so much I didn't want to leave.

In November of 2012, I was promoted to Maintenance Manager. The promotion allowed me to get out of the pool business and do something that I enjoyed for the first time in a long time. I enjoyed solving problems, helping residents, mentoring younger techs, and giving my report for the Properties Committee. In June 2018, I became director of the department, and I still enjoy every challenge, every day. I am Brandon Balek, Director of Facilities Maintenance and I love my job.

SECURITY PATROL

702-254-2303

First Impressions

There is only one chance to make a positive first impression. That opportunity comes at each of the main entrances to Sun City Summerlin and the Information Centers. Security Patrol has a group of officers greeting visitors or answering questions about our community. Never knowing what will transpire during the four hour shifts is a part of the intrigue of this volunteer position.

Mister and Missus Almost Retired had heard about Sun City Summerlin from a family member and decided to check it out during a trip through Las Vegas. After turning off of Lake Mead Blvd into Sun City, the very first building they saw was the Information Center with its' inviting "OPEN" sign. The couple pulled under the over-hang and immediately were greeted by a friendly voice asking if they needed some assistance.

That person would be one of the special groups of security folks putting a face on Sun City at the Information Centers, affectionately known as the "I.C.'s". There are 'standalone' structures at three of the Sun City entrances, with all sorts of material available. The officers have had the training needed to cover most all aspects of the many questions from residents and public alike.

As our lives return to normal, Security Patrol is accepting folks who might enjoy this chance to train and meet potential new neighbors. As Mary Ann Bivans Grimms wrote "Working at the Information Center on Rampart two days a week is the best volunteer job I ever had."

"I love customer service and the Information Center is a great avenue to Welcome new people to our beautiful Sun City Community. Giving them our map and best of all, the LINK magazine, is one of the best and well received, parts of our job. Personally, I read the LINK Magazine cover to cover, therefore I am informed about our community.

Another important aspect of our Information Service is giving directions, people are always so grateful when we can guide them."

There is also the unexpected . . .

Milt Goldstein shared an experience while on duty in the Lake Mead IC during the year 2000 "As I was sitting at the window, I noticed a Hertz truck come into Sun City on Del Web Blvd. in the left lane. I had a feeling that

he was going to stop for directions, so I got up and opened the door and before I could come out to stop him, he turned into the IC and the over cab portion of the truck hit the overhang of the IC. Not only did he demolish the overhead roof at the IC but the upper part of the truck was also torn off. Now, there is a sign stating "no trucks or campers."

Gabe Centenera explains to folks how to join Security Patrol, and the fact that uniforms are provided. He has had some strange looks when he further adds that we are not paid for our time, we are all volunteers. One driver just put his car in gear and took off.

David Dorway said that in addition to the information he gives out as an IC officer, he loves to brag that we are listed as the safest community in Las Vegas. Many visitors are amazed by how low our monthly association dues are. He is also excited that he can share locations in Sun City with strangers. The strangers then become new friends. He says, "I have volunteered in the Sun City IC for eight years and I really look forward to this each week.

One more officer who is excited about sharing is Linda Van Horn. She gets very animated with hands and arms as she explains the clubs, golfing and other amenities at Sun City. One of her visitors said he could not believe the range of possibilities. Contact Security Patrol for opportunities to serve Sun City. Be sure and send a wave to the officers manning the IC centers.

What Are The Consequences?

Have you thought what it would be like NOT to have the Sun City Security Patrol functioning in our community? All of you may remember what it was like in the early days of the virus last year when all of our Security services were forced to shut down.

- No one to observe and report suspicious vehicles
- No one to perform house checks
- No one to investigate 911 emergency lights
- No one to advise residents of open garage doors
- No one to help contact residents when outside loved ones call
- No one to help look for or secure lost pets

Bill Schoening,
Chief of Security

Empty

Empty

- No one to provide directions to outside guests at the Information Centers

These are just a few of the many duties performed by the resident volunteers of this community. We are on duty 365 days a year, 24 hours a day. We are "neighbors helping neighbors". But, we cannot continue to be one of the safest communities in this State without the support of the folks who volunteer four hours a week. We are asking for your help.

There are many opportunities available. If a person isn't able or doesn't want to drive, the Information Center is a great

way to serve the Patrol. If either of these are not of interest, perhaps a clerical position would work for you.

And, if you are a new resident, the Patrol is a terrific way to not only keep abreast of what is happening in your neighborhood but it is a wonderful way to build new friendships! We are a responsible, conscientious and fun-loving group of people who love what we do but most importantly love this Sun City Community and want to keep everyone safe.

HEALTH & FITNESS

Strength as Medicine

People engage in strength training for many reasons, ranging from losing weight, to general fitness, to creating a more sculpted physique. Strength training can also be considered a form of medicine. Medicine does not have to be a

pill or substance you take. In this case, the "medicine" is physical movement involving weight-bearing exercise.

There are many physical conditions, for which we take pharmaceuticals, that could be treated and improved with strength training. Some of these are loss of bone density and muscle mass, diabetes, obesity, arthritis, and dementia.

After the age of 30, we may lose 3-5% of our muscle mass per decade. This can be even higher if you are inactive. Loss of muscle mass is called sarcopenia. Strength training is the only form of exercise that can lessen the impact of age-related sarcopenia.

Among those who have not spent a lot of time in the gym, there are often misconceptions about exactly what strength training is. Also known as resistance training or weight training, this type of exercise uses resistance to induce muscle contractions to increase muscle tone, strength, and endurance. This resistance/weight does not necessarily mean heavy

dumbbells or barbells. The resistance can come from resistance tubing or bands, a medicine ball, a can of soup, or a jug of water. It can also come from your own bodyweight, meaning you are exercising with nothing but your body.

Do not worry if you have never done strength training before. It is never too late to get started and reap the benefits. It is also not necessary to go to the gym. Heavy yard work, lifting boxes, climbing stairs, all qualify as strength training.

Another important benefit of strength training, specifically core and lower-body strength, is improved balance and coordination, which lowers fall risk. Physical Activity Guidelines for adults recommend at least two days per week of strength training.

Design your fitness program:

1. Visit your doc. If you are new to fitness training, have not been active recently, or are just trying something new, please check with your health care provider.

2. Have a fitness test performed. There are standardized fitness tests that can be done to assess your fitness level. These tests can be done with a personal trainer, or even at your doctor's office.

3. Consider a personal trainer. If you are new to the fitness arena or have been out of the game for a while, a personal trainer can be very helpful in getting you started on a program. They can perform the fitness assessment and then design a program specifically to fit your capabilities, desires, and needs. There are a LOT of personal trainers out there. Do some research and find one that has experience working with clients in your age group.

4. Incorporate variety. While this article focuses specifically on strength training, a well-balanced fitness program includes cardiovascular, strength, balance, and flexibility training. Whether you are working with a fitness professional or doing it on your own, incorporate different types of activities to keep challenging your muscles and keep it interesting.

This fall, the Health & Fitness Department will be introducing a series of seminars and workshops aimed at addressing some common ailments such as arthritis, back pain, and balance issues with strength training. Look for more information on this series in the September LINK magazine and subscribe to Tuesday Newsday for weekly updates on fitness-related offerings.

After Workout Smoothies Great Taste and Great for Strength

Smoothies are a great way to get more fruits and vegetables into your diet and can be quite refreshing after a hard-earned workout. But not all smoothies are created equal; there are plenty of packaged blends that are hidden with highly processed ingredients and can defeat the purpose of a healthy meal or snack. Simple homemade smoothies can be made from ingredients straight from your refrigerator. Consuming the right nutrients after you exercise is just as important as what you eat before a workout.

Protein, Carbs and Fat- Essential Macronutrients

Protein - Helps Repair and Build Muscle

Carbohydrates - Help with Recovery

Fat - Helps the body absorb vitamins

A post-workout smoothie that has protein, carbohydrates, and fat will enhance muscle growth and recovery. Consuming a ratio of 3:1 (carbs to protein) is a practical way to achieve this goal.

Protein

Animal or plant-based protein powder

Greek yogurt

Chia seeds

White beans

Tofu

Cottage cheese

Carbs

Fruits - pineapple, berries, banana, kiwi

Dark, leafy vegetables

Sweet potato

Beet

Beans

Cucumber, celery and lime or lemon juice

The Atomic Testing Museum

By Norman Wright

On October 18, 1962, the exact moment that the Cuban Missile Crisis was occurring, Nick Aquilina was honorably discharged from the Army where he worked as a medic. The Cold War suddenly got hotter, and an opportunity to work at Nevada's Atomic Testing Site opened up. In December 1962, Nick began working an entry-level job transporting and counting money spent at the site. Over the next 30 years, he advanced to become the site manager in 1987, supervising over 12,000 Nevadans, many of whom rode to work on 135 busses operated by the Federal Government. The last "shot" at the NTS occurred in 1992, and Nick remained in charge of all operations until retiring in 1994.

However, Nick does not want this article to be about him, but rather about The Atomic Testing Museum that he and other former employees of the NTS established. They believed the history of atomic testing needed to be preserved and the events put into context of the times.

In the late 1990s, a small area showing some photos and other memorabilia was displayed in DoE facilities located in North Las Vegas. The Desert Research Institute (DRI) an affiliate of the Smithsonian Institute became involved.

Recognizing the magnitude of the history behind the

Nevada Testing Site (NTS) could not adequately be displayed in the limited space. Nick, along with other former employees, raised six million dollars and petitioned the Nevada legislators who authorized a revenue bond. This still was not enough to establish the museum, so Nick and about a dozen others who were dedicated to creating the museum, signed over the deed to their homes as collateral for the additional funds. The 8,000 square foot museum, located on East Flamingo, was officially opened on February 20, 2005.

In 1988, just after Nick took over as manager, President Reagan ordered that the US and Soviets share knowledge of their testing programs. During the next eight months, 45 Soviets rotated to Nevada to evaluate our testing program, while Nick and 44 other United States testing experts rotated to USSR for the "Joint Verification Experiment". The Berlin Wall fell on November 9, 1989, and the contributions that the testing site made to détente and ending the Cold War are enormous.

In 2019, the Atomic Testing Museum added numerous exhibits including a full-size replica of "The Gadget", the first atomic bomb that was detonated on July 16, 1945. Three weeks later the "Little Boy" was exploded above Hiroshima and a replica of

the "Fat Man", which was dropped on Nagasaki, is also on display. Although dropping these bombs was controversial, it put an abrupt end to the Second World War and undoubtedly saved hundreds of thousands of American and Japanese lives.

The museum, in a "just the facts" way, explores the ongoing development and history of nuclear bombs putting it into perspective with the timeline of world events. Its association with the Desert Research Institute also explores the geology of the site, which is 65 miles north of Las Vegas. But just as the Museum was achieving a record number of visitors, the COVID-19 pandemic struck and for the past year, the museum has been essentially closed. It is now gradually reopening.

To quote Nick: *"The National Atomic Testing Museum is one of Las Vegas' premier STEM education institutions, hosting thousands of students from Southern Nevada and across the country via virtual field trips. We are a world-class facility that successfully educates the local, regional, and international community on the U.S. Nuclear Weapons Testing Programs. Our Distinguished Lecture Series brings the best and brightest in their fields who share their knowledge and experience. Our community is not only local but also global. — we are a recognized part of the Las Vegas tourism economy, and have been a trip highlight for tens of thousands of tourists each year."*

Nick lives here in Sun City with his wife, Freda, who he met at the site. Contact Michael at Michael.hall@natm-nv.org for additional information or to arrange group tours.

The Nevada Test Site

By Nick Aquilina

January 27, 2021, marked the 70th anniversary of the first Nuclear bomb test at what became known as the Nevada Test Site (NTS). On that early morning in 1951, a B50 departed from Albuquerque, NM, and headed to the Nevada Proving Grounds (its initial name) some 65 miles northwest of Las Vegas and at 19,700 feet over Area 5, airdropped a Nuclear bomb, code-named Able, that detonated with a yield of 1000 tons at an altitude 1060 feet. Southern Nevada, the counties of Clark, and Nye, the towns of Beatty, Pahrump, and Las Vegas entered the cold war and was to participate in this Nations policy of Nuclear Deterrence for the next 7 decades.

Many Sun City residents are new to the area and may not be familiar with what occurred at the NTS. I thought it may be interesting and important to give a quick snapshot of its history and a few significant moments. History is so quickly forgotten, and often rewritten and periodically it is worthwhile to review it. It is also important to remind us of the contributions that the people of Nevada made to the success of the Nuclear

Deterrence Policy, and the ending of the Cold War.

Why the Nevada site? The Soviet Union developed Nuclear capability sooner than anticipated, the need to explore the principles of Fusion, the decision to reach for a thermonuclear/hydrogen bomb and the start of the Korean War that could have interrupted the testing being done in the Pacific. Several alternate sites were reviewed and rejected. With all these issues occurring, President Truman signed off on the study on December 18, 1950, and a portion of the Nellis Bombing and Gunnery Range was selected.

After the Able event, four additional airdrops were conducted over the next ten days, ending with the Fox event with a yield of 22 kilotons, and the Nuclear race with the USSR was on.

During the first couple of years, activities at the NTS were on a campaign basis. But shortly after, permanent facilities began to be constructed and thousands of civilian and military personnel began working there, many of whom lived at the site.

Testing continued, both in the Pacific and at the site until October 1958, when President Eisenhower entered into a unilateral testing moratorium with the USSR. Employment levels were reduced to a maintenance level. The USSR abrogated this agreement in September 1961, with a series of the largest tests ever conducted; one was over 50 Megatons. The US quickly resumed testing at the NTS, and soon on a year-round basis.

NATIONAL ATOMIC TESTING MUSEUM

In Association With The Smithsonian Institution
NATIONALATOMICTESTINGMUSEUM.ORG

Testing in the Pacific continued until November 1962.

Atmospheric testing ended when the US and USSR entered into the Limited Test Ban Treaty in 1963, which banned tests in the atmosphere, outer space and underwater. The last atmospheric test at the NTS was in July 1962.

Underground testing continued at a robust level over the next three decades. In 1974, an agreement with the USSR restricted the size of all explosions to yields no greater than 150KT after April 1, 1976. A condition the US abided to, although the treaty was not approved by the Senate until 1991 after verification methods were proven- Trust but Verify!

A total of 928 tests were conducted at the 1380 square mile NTS, of which 100 were atmospheric and 828 underground. An additional 106 atmospheric were conducted in the Pacific, and three high altitude in the South Atlantic. Seventeen underground tests were conducted at other US sites including Alaska, New Mexico, Colorado, and Mississippi. The last test at the NTS was in September 1992.

During this period, employment levels at the NTS often exceeded 12,000. Additional thousands of scientists, engi-

neers, and support personnel were employed at Los Alamos, Livermore, CA, Albuquerque, and the DOD.

In addition to the above contributions to the US Deterrence Policy, one of the significant occurrences at the NTS was the Joint Verification Experiment. In 1988 Soviet personnel came to Nevada, and US personnel went to the USSR site in Kazakhstan. Experiments dealing with verification methods were conducted on each site, leading to the approval of a significant treaty in 1991. It brought nuclear leaders from both countries together, and many believe it contributed significantly to the end of the Cold War. Space limitations will not allow me to detail this exciting time. A visit to the National Atomic Testing Museum located on East Flamingo Road, puts the history and events of the post-World War Two era, through the ending of the Cold War with Russia into perspective and shows the important role that Nevada played during those turbulent times.

Author: Nick Aquilina, began working at NTS in 1962 and retired in 1994. He was DOE Manager of the Site from 1987-1994 and was also assigned to positions at Idaho National Engineering Laboratory, and The Savannah River Plant.

“As I See It . . . ” Make 'Em Count

By Alan G. Spector / Link

You know, we eat M&M's by the handful when we are presented with a huge bowl of treats. But have you ever noticed how you begin to take them one by one as they become sparse at the bottom of the bowl, to make them last and to savor each one?

Ever notice how much faster the toilet paper roll spins as you get closer to the end of the roll? In the beginning, you can hardly notice the roll getting smaller, but as you use it, it seems that the roll just disappears . . . quicker and quicker, till it is gone!

Now that Spring is here, we are finally beginning to see the

end of the COVID-19 pandemic. We have all suffered losses, and sacrifices, deprivations, and solitude, and we have missed out on a lot. It seems to me that now is the time to re-assess, re-envision, and re-build. Somehow, things feel different now. We are beginning to safely get out and get going. I really don't want to just return to the old normal. I want to "make every one of them count!" I want to take them one at a time and savor every one. I want to value each one since I know how fast they are going. If we have learned nothing from this pandemic, we should have learned that life is totally unpredictable. Only a silly person thinks they know what is in store for us. No one should be surprised when the unexpected happens.

Since that is true, I am going to make every effort to not "just do" but to "just do it better". Not to "experience" but to "appreciate and value", even the small things in my life. There is no payoff in living in the past, and no way to really live in the future. All we have is the "present", so let's make it really count! Today is the day to do something good for someone, to connect with a friend or family, to sit in the yard and really "see" the blessings of the nature around us. I want the last words I ever say on this earth to be "I love you!"

Today is the day to "make it count!"

Sun City Summerlin is the best ever! I have always believed that we should credit the person who does something exceptional since they would be the one we would blame if the effort was a dismal failure. In this case, that would be Mitzi Mills, who managed and oversaw Sun City's unbelievably efficient COVID-19 vaccination clinic. No matter where you got your shots, everyone agrees that Sun City's vaccine project was the best administered program anywhere in Las Vegas. As a result, those who wanted the shots have either received them, or will soon, and our community is well on its way towards a

return to our special and valued SCS lifestyle. However, in actuality, we must sincerely express our deep gratitude to all the

staff, and volunteers who "made it happen" for SCS homeowners. To all of you, although you are too numerous to mention by name, please know that we all love you, and are so grateful for your efforts. You have literally "saved our lives" and enhanced our futures in so many ways.

A huge thanks to Mitzi, all the staff, the wonderful volunteers, Security Patrol, The Las Vegas Fire Department, and

everyone who worked so hard to make COVID-19 history. Blessings to you all.

Sun City Community Opens its Doors for a Las Vegas COVID-19 Vaccination Clinic

Above: Maria Contreras and Gerad Perez, right: Lee Margolin.

On Wednesday and Thursday, April 7 and 8, Sun City Summerlin opened its doors to the city of Las Vegas and became one of the vaccination centers of the Southern Nevada Health District (SNHD) for the COVID-19 vaccines. 1,129 people were given the very important first shot on April 7th, with 1109 people receiving their shot on April 8th. SCS and all its participants will have vaccinated over 6000 people! Hopefully, all of them will be back for their second shot on April 28th and 29th.

Our local Fire Station 107, our Security Patrol, the Fitness Department, Community Services, Sun City Custodial Staff, and the usual volunteers were there to keep everything running smoothly. People from UNLV Medical School, Fire Station 107, AMR Ambulance and one Sun City resident were given the responsibility of administering the shots. We appreciate them all!

When I first got there (about 10am) the line from the main entrance stretched all the way to the flag circle at the front of the building.

While standing at the exit, I spoke with Maria Contreras and Gerard Perez, who travelled over thirty minutes to get to our community. Maria said she found out about our event from her brother-in-law and Gerard added that he searched on Google and was directed to the SNHD website, where you could make reservations for the event. Both were impressed with the simple, yet very organized way of administering the shots.

I also found, Lee Margolin who lived downtown. He had travelled about twenty minutes to get to us. He was very impressed with the organization of the event.

Sun City was glad to accept this responsibility and we thank all the volunteers and other organizations.

Aquacize

Aqua water aerobics is a healthy, low impact, easy on your joints workout. It covers all the muscle groups with 59 different exercises in each workout. Sun City residents may attend any of these four Aquacize classes:

1. Desert Vista 8 a.m., January-December. 2. Mountain Shadows 8 a.m., April-October; Sun Shadows 8 a.m., November-March. 3. Sun Shadows 10 a.m., January-December. 4. Mountain Shadows 7 p.m., May-September; Desert Vista 7 p.m., October-April. Classes are Monday-Saturday. Dues are \$10 per year. For more information, call Richard Adkins at 714-1014 or email scscaquacize@gmail.com.

Art

Artists of all levels from beginners to advanced are welcome to join the Art Club. Dues are \$15 a year. The next monthly in-person general meeting is planned for Monday, May 17, 1 p.m. We will be sharing our monthly meetings on Zoom in 2021. The link to the Zoom meeting will be emailed out to all members. We are adding new classes and hope to be back to a full schedule as soon as possible. For more information, please feel free to contact Steve Brenner at 749-7737 or visit us at our website online at www.suncitysummerlinart.com.

Arthritis

Do those painful joints keep you from exercising? We have a solution. Slip into your swimsuit and join us in the pool for soothing exercises that get those joints limbered up. These exercises safely move every part of the body. Stretching, range of motion, flexibility and balance improve health and wellness. This low-impact pool exercise Club meets Tuesdays and Thursdays, 10:30-11:30 a.m., Desert Vista. Check with your doctor to ensure you are fit enough for the class. Annual dues are \$35. Call Kelly Fairchild at 763-286-4862.

Band Jam

We are business as usual, so if you are a Sun City musician or vocalist who has no one to play or sing with, our Band Jam Club is looking for you. We have created a Musician's Directory that is available to all Club members. Use this directory to find musicians and singers to create your unique band. Annual dues are \$10. If you want to join or have questions, call or text Jim Barr at 497-2162 or email bandjamclub@gmail.com.

Chicago/Midwest

Spring has sprung, and we've almost been "sprung" from our isolation/quarantine. There is light at the end of the tunnel, and hopefully that light will shine on the Chicago/Midwest Club. Keep the faith, and hopefully we'll see each other soon. For more information on this dynamic Club, call Myra at 838-3859.

Classical Music

The Classical Music Club is looking forward to the reopening of the Starbright Theatre! Movies will be shown there in April. We are currently putting together

our COVID-19 protocol. Our performers are rehearsing and soon, hopefully, this summer, we will have live music again in our theatre. Stay tuned for more info. Thank you for your patience. For more information, call Will Rydell at 580-0727. *Pictured from left to right, The Las Vegas Piano Quintet: Adam Stiber, Ginger Gundlatch, Dr. Patrick Hsieh and his mother, Elizabeth LeTourneau and Will Rydell.*

The next general meeting will be held on Thursday, May 6, via Zoom. Program details are on our website at www.scscclb.club. You can join our Club at the session. Yearly dues are \$10. Conservatives

Until further notice, due to the COVID-19 directives, we will meet via Zoom on the third Thursday of each month at 6:30 p.m. Visit our website at: www.scsconservatives.club/p/calendar.html for updates and the Zoom link to join meetings, or call Brenda Flank at 286-8957 or email scsconservativeclub@gmail.com. Our 2021 Officers are: President, Brenda Flank; Vice President, Sue Stitt; Secretary/Treasurer, Dennis Filangeri; Directors, Anne Green and Jay Sesto.

Cribbage

We welcome new players. We usually play partners format and strive to reach 400 points in a round. These are hard times with this virus, but please know we will gather again, and we will all be happy to be together and play our favorite game! Stay well friends! Dance Company

Under "normal" circumstances, we would now be entering our summer hiatus. Instead, we have been on hiatus due to COVID-19 for more than a year and are now going into the 2021 summer hiatus! We have very positive hopes that in September 2021, we will be back to regular activities. Dancing is the best exercise for your mental, and physical health. We plan to get back to tap, jazz, drill, and musical theater in the Fall. Until then, members should watch for our newsletters to keep up to date. If you want to join us, contact Jolynn at jolynnreid@gmail.com.

Dance Connection

You're invited to attend any of our Dance Connection Classes: Get Movin', Just Dance, Get Up & Dance, Beginner Line Dance, Dance Fit, Beginner & Intermediate Flamenco, Line Dance 1, I-Moves, BeMoved, and Showstoppers. Pick up a schedule at any fitness center or visit our website at www.scsclubs.wixsite.com/dance-connection. For questions, call Kris at 443-8759.

Euchre

The Euchre Club is a very social group. We normally play at Mountain Shadows at 6 p.m., on Wednesday evenings. While we haven't played in months, I am sure everyone is looking forward to resuming play soon. New members are always welcome, and you don't have to know how to play as lessons are available. Dues will be waived for current members in 2021. Please stay safe and healthy during this really difficult time. Call Gloria at 430-7785 with any questions.

French

We normally meet every Friday from 2-4 p.m., in separate rooms at Sun Shadows for beginners, intermediates and accomplished French speakers. Unfortunately, COVID-19 has prevented us from meeting until sometime in 2021. We'll make an announcement in the Link and on the bulletin boards as to when we'll reopen. In the meantime, don't forget to help solicit and encourage possible new members. For more information, please contact Willy Janssens at 707-495-5395.

Friends of the Summit

Due to COVID-19, our Club has not met since March 2020 and we miss you! Keep looking for announcements in the Link and emails about any upcoming changes. We support music at the Summit, including Friday night band night, Tuesday jazz night, and Monday blues night. If you have any questions or for more information, contact us at [friendsofthesummitcs@gmail.com](mailto:friendsofthesummitscs@gmail.com).

In May, tee time is at 7 a.m., with check-in by 6:30 a.m. Beginners to seasoned golfers are welcome to try out our Club twice, before joining. Golf, Men's 18 Hole

Gentlemen, we all have a responsibility to keep our golf courses in the best possible condition. We need to fill in our divots in the fairways, and repair ball marks on the greens. This only takes a few seconds to do. If we all did this, our courses would be in a lot better condition. So please take a few seconds to do this, and remember, keep golf carts 30 yards from the greens, and 30 feet if you have a handicap flag. For more information about our Club, contact President Phil Kapsimallis at 818-489-6076.

Golf, Men's Niners

We welcome golfers of all levels. Come join us for nine-hole events. Our weekly tournaments here on our Sun City courses will continue every Thursday morning. As of Saturday, May 1, tee-offs begin at 7 a.m. We are hopeful that out-of-town golf trips, and our Octoberfest picnic will take place this fall. Membership applications are available at each pro shop. For more information, please contact our Membership Chairman Louie Medrano at (661) 478-0182.

Golf, Women's

If you are now, were once, or hope to be a golfer, our SCS Women's Golf Club is exactly where you want to be! The members are fun and supportive both on and off our courses. A "buddy" will be assigned to you to show you the ropes and introduce you to our members and our fabulous golf staff. Our play day is Tuesday mornings from 7-8 a.m., depending on the season. The COVID-19 crisis, and in-person meeting restrictions have wreaked havoc on the officer's abilities to perform membership services including membership applications, dues processing, and communications. We are working on shoots at the Clark County Shooting Complex for 2021. Whether new to firearms or an old hand in the shooting arts, our Club is for you. Membership includes retired firearm instructors, former law enforcement, and military personnel, as well as residents new to gun ownership or shooting. We have lists of classes, places to shoot, gunsmiths, and CCW permit instructors. Please contact President Tim Emmitt at 312-235-9068 or TEmmitt7777@outlook.com.

Hiking

Our next meeting is scheduled for Thursday, May 6, at 8:30 a.m., via Zoom. An email will be sent to members with a link to join the meeting. Monday hikes have resumed in small

groups, RSVP basis only. Emails are sent to members on the Thursday prior to the hike date with all pertinent information, and the ability to RSVP. A separate email is sent for each hike. RSVP for one hike per Monday, and cancel if necessary, so that a fellow hiker may participate. All hikes leave from the Northeast corner of the Pinnacle parking lot. First time hikers must call Coordinator Ann Cronin at 737-5758.

For more information, please feel free to contact President Steve Commander at 304-1768.

Italian

Unless there is a change in the COVID-19 protocols, the May Italian Club dinner-meeting is cancelled. Should the situation change, all members will receive an email notification advising of the change and what the venue will be. Please be patient; this, too, will pass. In the meantime, be careful and stay healthy. For Club information, call George Pucine at 242-3707.

Jewish Friendship

We were hoping to be able to meet as most of our members are fully vaccinated. However, due to the COVID-19 guidelines we are not able to meet yet. We will definitely inform you by email as soon as anything changes. In the meantime, continue to follow the rules, and hopefully we will have a better 2021 than 2020. TRENDING: From the Executive Director

People Walking on the Golf Course

Just a reminder, pedestrians and dogs are not allowed on our golf courses at any time.

Some of you may come from areas where in the winter when the course is closed, early morning or late afternoon people may be allowed to use the courses for walking.

Our courses are not only open year-round, between maintenance and tee-times our courses are either being maintained or golfed on all daylight hours.

There are many safety reasons why pedestrians should not be on the courses at any time, some you may not have thought of;

- The courses are designed to be accessed by golf carts, the ground, turf, and cart paths were not built and are not maintained for walking.
- Walking while golfers are on the course is dangerous. According to Golf Digest, an estimated 40,000 people each year seek emergency medical treatment due to injuries caused by **errant** golf balls and flying club heads. A golf ball hit by a golfer can be traveling as fast as 148 mph or more.
- When there are no golfers on the course, we are maintaining the courses with chemicals, fertilizers, and watering with non-potable water. While none of

these things are poisonous, you certainly do not want to subject yourself or your pet to them.

- We use large noisy equipment on the courses. Our workers know where the golfers are and know how to look out for them. The same cannot be said about pedestrians and dogs.
- Our golf courses have no lighting and do not have pedestrian walks so they can be dangerous for you to walk on.
- Coyotes have dens on our courses, and we would hate to see your pet attacked or you injured trying to protect your pet.

Seasonal golf courses have the flexibility of allowing people and pets on their courses during the winter months when there is no maintenance, watering or fertilizing, since our courses are open year-round, we have limited hours to care for our courses and we do put chemicals down during the times no one is to be on the course.

For your safety, safety of your guests and safety of your pet, please do not access the golf course for any purpose other than to golf and then do so by checking in at the Pro Shop during business hours.

Thank you,

Mitzi Mills, Executive Director

Dog Owners

Acronyms:

SCSCAI = Sun City Summerlin Community Association, Inc.

CC&R's = Declaration of Covenants, Conditions, Restrictions, Assessments, Charges, Servitude, Liens, Reservations and Easements.

Sun City Summerlin is a beautiful community that offers miles of sidewalks lined with beautiful landscape and greenbelt areas where dog owners can walk their dogs. Unfortunately, the acts of irresponsible dog owners impact all dog owners that live in SCSCAI.

If you are a dog owner and enjoy being able to take your dog to the greenbelts or allowing them to walk off the sidewalk in the common areas, then please take a moment to review the following. Responsible Dog Owner guidelines that are being violated by a few and could threaten the use of these areas by the majority of dog owners who without prompting follow these guidelines all the time.

I often say the luckiest dogs are those who live in Sun City Summerlin. Their owners love them and take such wonderful care of them but being a responsible dog owner is much more than just loving, feeding, providing veterinary care and grooming your dog. It also involves the following elements.

Disposal of Dog Waste - The Association does not employ people or a third-party company to police the miles and miles of sidewalk or

acres of greenbelts to pick up dog waste. This would need to be done on a daily basis and I cannot even imagine what it would cost, and I am sure that our 7,781 Owners do not want to foot the bill for those people who walk their dogs and do not pick up after them. There are a lot of reasons to clean up after your dog, but here are four to keep in mind:

- (1) It is the right thing to do if you own a dog.
- (2) It impacts other areas of maintenance in the community. If we have to defer maintenance efforts and funding from other areas to clean up after your dog.
- (3) Uncollected dog waste spreads disease and attracts rodents who feed on pet waste.
- (4) Uncollected dog waste attracts coyotes to areas such as our greenbelts.

Also, please note, proper disposal of dog waste does not mean putting it in a bag and throwing the bag in the landscape area or another homes trash container, it means carrying that bag back to your home and disposing of it in YOUR trash container.

Dogs must be on a Leash – The City of Las Vegas has a very strict leash law. All animals must be confined to the Owner's property or shall be on a leash when on any public property, any highway, street, alley, court, public ground, fenced lot or wash. Leash requirements do not apply to designated enclosed areas of animal parks or animals participating in sanctioned performance events. Failure to have your dog on a leash is a civil infraction.

SCSCAI CC&R's state that no animals shall be

permitted upon Common Area except as controlled on a leash or similar device held by its Owner.

Please note that all dogs over the age of 4 months within the city limits of Las Vegas are also required to be licensed with the city.

No Dogs Allowed – If a sign on our common areas says no dogs allowed, it means for everyone, not everyone but you and your dog. Except for service and emotional support animals, animals are prohibited from SCSCAI buildings and golf courses.

Acceptable Socialization - Not everyone will love your dog as much as you do, in fact many people are afraid of dogs, or are just not interested in someone else's dog. Just because your dog is on a leash, does not mean you should let it approach other people or other dogs. The leash you have on your dog should be short enough that it allows you to keep your dog under control at all times.

We have received numerous reports where dogs have run up and bitten people or other dogs, and every time the Owner of the dog responds they are shocked because their dog has never bitten anyone or attacked another dog.

Be a good neighbor - When walking your dog in the community, do not leave their waste in front of other homes or in the washes. Do not put your dog waste in other people's trash bins. If a resident of a home asks you not to let your dog use their yard as the dog's restroom, do not day after day continue to walk your dog to that location and stop there to let your dog urinate or defecate.

In addition, do not put your dog in your yard and allow the dog to bark for long periods of time. If the barking is more than what you

would allow inside your home (while you are in it), then do not subject your neighbors to the noise by putting your dog outside and allowing it to bark.

Remember, many people move to Sun City Summerlin so they can spend time outdoors in their backyards relaxing, and their outdoor space is just an expansion of their indoor living space.

Please help us keep Sun City Summerlin Community Association a dog friendly and welcoming community, by practicing or continuing practicing these simple Responsible Dog Owner guidelines.
